Ms Vasanthi Lajapathi, India

Ms Janet Barnstable, USA

Mr Timothy Alguire, Canada

I am pleased to know that the students from your school, as a team, have taken the theme, **Water**, for your global virtual contest and I appreciate the efforts put in by them.

I thank you for approaching me to write a few lines on Water, which you can reproduce on your website and I would like your students to know about World Water Day

"World Water Day (22 March 2009) is an important time for all to reflect on water - life's most important resource and how we are sharing, caring, and using water on this earth. World Water Day is a wonderful event because it focuses the entire world on the critical need for clean drinking water around the globe. It is our hope that World Water Day will continue to grow as more communities, organizations, corporations, and individuals take part in this wonderful event each year. In my opinion, World Water Day is the perfect theme for an international event. Kudos to your team members for all of their hard work. Also, your team members are excellent ambassadors for your school, your families, and your nation."

I agree for you to take the content from my blog www.h2bidblog.com about the prominent artist <http://www.h2bidblog.com/h2art/prominent-artist/> and use it in your contest website.

I wish you all success

With regards

Glenn Oliver
